PRESENTATION

TWS Integration Lync can integrate the directory search from TWS directories in Microsoft Lync clients.

Prerequisites

Compatible Systems

- Windows Server 2008 / Windows Server 2008 R2
- Windows 8
- Windows 7

TWS

- TWS Server 4.2 or supperior
- Licences TWS RCC Gateway

Necessary applications

- Microsoft .Net Framework 4.0 Full package or superior
- Microsoft Lync 2013 or superior

INSTALLATION

• Run the installer "TWS Lync Integration.msi".

🖞 🛛 TWS Lync	Integration - InstallShield Wizard
	Welcome to the InstallShield Wizard for TWS Lync Integration
	< <u>B</u> ack <u>N</u> ext > Cancel

- Click "Next" to start the installation.
- Once installed, an icon will be added to the Windows desktop.

CONFIGURATION

Start the application "TWS Lync Integration"

Configure TWS connection

8	TWS	For Lync - A	dministration					X
TWS Informations			Association betwee	n Lync users ar	id TWS			
TWS Server's name	The name of the TWS server must be filled							Q
Admin TWS username			Lync Username	Lync Email	TWS associate	account		
Admin TWS Password								
	Refresh							
Lync Configuration								
Domain Windows name	lync2013.local							
✓ Enable Lync Integrati	on							
Path to Lync Web.config								
Intern	C:\Program Files\Microsoft Lync Server 2013\Web Components\Group Expansion\Int\Web.config	• • •						
Extern	C:\Program Files\Microsoft Lync Server 2013\Web Components\Group Expansion\Ext\Web.config	• • •						
					OF		Cancel	Apply

Enter the connection information in the "TWS Information" area:

- "TWS Server's name": Enter the name of the TWS server
- "Admin TWS username" and "TWS Admin Password": Enter the user account name and password that can connect to the administration of TWS. You can edit or add an account administrator in the TWS administration interface (see the installation and configuration documentation TWS)
- Click the "Refresh" button to validate the information. If the login information is correct, « Lync Configuration » et « Association between Lync users ans TWS » will enable.

Integrate in Lync Server

The "Lync configuration" box to install and configure the integration of TWS in Lync Server.

Lync Configuration		
Domain Windows name	lync2013.local	
😧 Enable Lync Integrati	on	
Path to Lync Web.config		
Intern	Ci-Program Filesi-Microsoft Lync Server 2013/Web Componentsi-Group Expansion/Inti/Web.config	
Extern	Ci-Program Files\Microsoft Lync Server 2013\Web Components\Group Expansion\Ext\Web.config	

- "Windows Domain Name": Retrieves the domain name of the server Lync
- "Enable Lync Integration": Enable / disable integration with Lync TWS
- Configuring the Lync directory.
 - Identify the Lync installation directory (defaut : C:/Program Files/Microsoft Lync Server 2013). TWS Integration Lync must modify the web.config file in the internal and external directory in the folder "./Microsoft Lync 2013 / Web Components / Group Expension /". If the default directories do not match the default directories click on the icon and select the right file "web.config"
 - Click on the icons 🖾 to integrate TWS in Lync. (Intern and Extern)
 - $_{\circ}$ To uninstall the integration, click the button 🖄

Association users Lync with TWS

Lync Username	Lync Email	TWS associate account		
jaziere	jaziere@lync2013.local		2	
mchartier	mchartier@lync2013.local	mchartier ×		
user1	user1@lync2013.local		2	
user2	user2@lync2013.local			
user3	user3@lync2013.local		÷	
user4	user4@lync2013.local		2	

This section allows you to associate user accounts with Lync user accounts TWS. During the first connection, the app will combine Lync accounts and TWS automatically based on user names and email addresses.

You can associate an account manually by clicking on the icon \clubsuit . A second window opens with a list of TWS users.

@			Choos	e user		x
	See only auth	orise to use TW	S for Lync			۹
